

CCOSS 2024 + KCD Guadalajara

February 23 and 24. Guadalajara, Mexico.

About CCOSS and KCD

- What is CCOSS?
 - The Cumbre de Contribuidores de Open Source Software (CCOSS) is the largest event in Latin America focused on promoting contribution to open source projects.
 - It has been held in-person and online since 2019 with sponsorship of companies such as Google, AWS, Intel, IBM.
- What is KCD Guadalajara?
 - KCD (previously known as Kubernetes Community Days) are community-organized events that gather adopters and technologists from open source and cloud native communities for education, collaboration, and networking.
 - This KCD will be the first edition in Mexico, and it is supported by the CNCF.

Key information

- Dates: Friday 23 and Saturday 24, February 2024
- Location:
 - City: Guadalajara, Mexico
 - Venue: CUCEA at Universidad de Guadalajara.
- Audience: 200 in-person participants
- Main topics
 - Tools and best practices for cloud native app lifecycle management
 - Inspiration, tutorials and tips for contributing to open source projects
 - Open hardware

Reasons to sponsor:

- Gain unparalleled **brand awareness** within the Kubernetes and open source communities, connecting your company with **highly engaged developers**, system engineers, architects & technical leaders.
- Associate your brand with one of the fastest-growing technology communities and demonstrate your **commitment to community** growth and development.
- Take advantage to networking opportunities with quality, **targeted attendees**, and leverage as a powerful platform to promote your product and **recruit top talent** from a diverse pool of skilled professionals.
- Your brand will **enhance its credibility** by establishing itself as a prominent and influential player in Cloud Native technology and the Open Source Software.

Contribute to the growth and advancement of the Cloud Native and Open Source vibrant communities.

Location and Venue

The event will be held at CUCEA (Centro Universitario de Ciencias Económico Administrativas) part of the University of Guadalajara, located at one of the prominent tech hubs at Latam.

The event venue will allow for plenary sessions, rooms for simultaneous talks and workshops, and will offer a space for the exhibition floor, where sponsors will be located and able to contact with participants.

A man with a beard, wearing a blue and white checkered shirt and grey trousers, stands on the left side of the frame, facing a large audience. He is holding a microphone and appears to be presenting. The audience, consisting of many people of various ages and ethnicities, is seated in rows of modern, dark-colored armchairs. They are all looking towards the presenter. The setting is a large, open-plan office or conference room with high ceilings, large windows, and modern lighting fixtures. The floor is covered with a red and white geometric pattern. The overall atmosphere is professional and engaging.

Myrle Krantz

@myrleKrantz

This conference had the most enthusiastic, energetic audience I've ever seen.

Thank you #CCOSS for hosting a track on @theASF.

At #CCOSS, right? The event was excellently executed! I saw many rooms where there were issues submitted, triaged, worked, and closed today!

It's a fantastic first impression for first time contributors. I hope many return and contribute again!

@QuetzalliAle

Celebrating a job well done! 🤖

Our #AWSRoboMaker workshop was so much fun, we literally couldn't get these folks to leave! They stayed doing more projects with us until they officially closed the auditorium.
